# Spanish Immersion Summer Camp

For ages 3 to 6

Aug. 10-14 '09  
9 am -12 pm

It's like traveling to Latin America  
without taking a plane!

Having fun & learning a lot @ the same time!  
Making friends with children around the Americas.

**SPANISH TRAIN**

IMMERSION WORKSHOP FOR TODDLERS

**Spanish Immersion**

Which means that all activities will be directed and performed using only Spanish! The children will be amazed to realize how much they understand and even will get confident enough to start speaking in Spanish.

**Relevant Theme:**

Can you name all the countries in South America? What about Central America?...

We want to offer a Summer Camp with a relevant theme, so while the children are immersed in the Spanish language they will also gain knowledge of “*Nuestra América*”. In 5 days your child will have the chance to learn the continents and countries of the Americas, the different aspects that make each of them unique; similarities and differences and—above all—the notion that we all wish for peace, prosperity and fraternity. We will use songs, great didactical materials, games and activities to make it fun!

**Montessori-prepared environment:**

The Montessori environment provides an excellent context for your child (or children) to experience the Spanish culture and language in a natural way. Learning by doing is the key to our Spanish Train Summer Camp. The Montessori materials used in the Summer Camp will add another dimension to the learning process. The child will use all of her/his senses when learning.

**Pen-pal letters:**

What better way to make your child interested in learning about other countries in “*Nuestra América*” than by giving them the chance to make connections with other children in different countries? Your child will have a pen-pal from a Latin-American country! We already have children from Chile, Ecuador, Mexico and Costa Rica who will correspond with your child. They don’t know how to write yet? It doesn’t matter—pictures, drawings and scribbles are better than words! The important thing here is making your child connect with other children around “*Nuestra América*”, so that he or she can get a better sense of place and space.
